Research Triangle Park, NC 27709

Subject: Supplemental Label Amendment Application Dated January 25, 2013  
Nortica: EPA Registration No. 432-1512

Dear Dr.:

The supplemental label amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(5), is acceptable provided that you:

1. Submit and/or cite all data required for registration/registration review of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment. Final printed labeling means the label or labeling of the product when distributed or sold. Clearly legible reproductions or photo reductions will be accepted for unusual labels, such as those silk-screened directly onto glass or metal containers or large bags or drum labels. Refer to the A-79 enclosure for further description of final printed labeling.

The supplemental label expires on May 15, 2016. This approval does not eliminate the need for continual reassessment of the pesticide. If EPA determines at any time that additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under section 3(c)(2)(B) of the Federal Insecticide, Fungicide and Rodenticide Act.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these terms. A stamped copy of the supplemental label is enclosed for your records.

Sincerely,

A handwritten signature in black ink, appearing to read "Kimberly Nesci".

Kimberly Nesci, Chief  
Microbial Pesticides Branch  
Biopesticides and Pollution Prevention Division (7511P)

**NORTICA**

EPA Reg. No. 432-1512

For Use On: Cool Season Turf

**CAUTION**

*This supplemental label expires May 15<sup>th</sup>, 2016 and must not be used or distributed after this date*

**Supplemental Label**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. Read this label and the product package label before using this product. This Supplemental Label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the product label for NORTICA attached to the container.

**Cool Season Turf:** Optimal results are obtained by initiating application of NORTICA early in the season (when average soil temperature at a 2 inch depth > 60°F for 5 consecutive days).

Pests Controlled	Rate
Cyst nematode Lance nematode Lesion nematode Root-knot nematode Sheath nematode Spiral nematode Sting nematode Stunt nematode	30-100 lbs/acre 0.7 – 2.3 lbs (10 – 30 oz)/1000 sq ft
<b>Applications</b> Make applications on a regular interval throughout the growing season.	

Irrigate after application of NORTICA to wash product from foliage and to ensure it reaches the targeted root zone in the soil.

***This supplemental label expires May 15<sup>th</sup>, 2016 and must not be used or distributed after this date.***
